Salt Lake City, Utah 84107

Dear Ms. Ivie:

RE: Crater Exploration, Partial Bond Release, ACT/019/017,  
Grand County, Utah

The Division of Oil, Gas and Mining has reviewed the current status of the Cato Placer Operation and has determined that partial release of the bond can occur. The bond amount required has been reduced to \$1,900.00 as indicated in the attached memo.

Crater must however, revegetate the site with a suitable seed mix and monitor the site for at least three growing seasons. Upon final approval of the site after completion of the monitoring period, Crater shall be able to collect the remaining bond amount.

The seed mix indicated in the bond estimate is acceptable for use by Crater for revegetation.

Please contact me at the Division regarding the timing of the revegetation work and for any other information that you may require in order to complete reclamation and obtain final bond release.

Sincerely,

*Susan C. Linner*
